<p><b>R4</b> Use digital and electronic tools appropriately, safely, and ethically for research and writing, both individually and collaboratively</p>	<p><b>Keyboarding Without Tears</b> is a grade-level appropriate, game-based keyboarding application. We prepare students with digital literacy skills and computer readiness, along with digital citizenship skills. It's important that students learn how to effectively communicate so they are equipped to perform well in online testing environments and in the digital world around them. The engaging activities build academic language aligned to each grade-level to ensure children have a strong foundation in vocabulary and background knowledge. We scaffold the child's learning experience by aligning the content areas with other grade appropriate subjects in literacy, math, science, arts and music. Students are empowered and engaged because the content and the audio and visual cues are familiar, friendly, and fun.</p>

We prepare students with digital literacy skills and computer readiness, along with digital citizenship skills. It’s important that students learn how to effectively communicate so they are equipped to perform well in online testing environments and in the digital world around them. The engaging activities build academic language aligned to each grade-level to ensure children have a strong foundation in vocabulary and background knowledge. We scaffold the child’s learning experience by aligning the content areas with other grade appropriate subjects in literacy, math, science, arts and music. Students are empowered and engaged because the content and the audio and visual cues are familiar, friendly, and fun.</p>
