

Make Your Own Letter Cards

If you're in need of some home learning activities, these little letter cards are loaded with hands-on fun! Trace, color, and cut them and you'll be on your way!

- Trace the letters in the capital cards with a crayon and cut them out.
- Color the lowercase cards and cut them out.
- Put the cards on the floor in ABC order.
- Match the lowercase letters to the capital letters.
- Play a matching game. Turn over 10 capitals/10 lowercase cards and try to find a match.
- Line up the capital cards in a straight line. Hop next to them and say the sound and/or the letter name.
- Put the letter cards on the floor and play "I Spy a Letter." "I spy a letter with a big line and a little line."
- Place capital or lowercase cards on the floor and play "Thump the Letter."
Call out a letter and the child thumps it with their hand.
- Go on a letter hunt. Find things in your house that start with the letter and place the card by the item (i.e., put a P card by a pillow or the L card by a lamp).
- Find the first letter of your name. Practice writing your name.
- Put all the letters in a pile (both sets). Now sort them by capital and lowercase.
Then pair them together.
- Play a card game. Make a stack of cards with both sets. Each player takes 4 cards.
Say, "I have a capital F, do you have lowercase f?" Play until there are no more cards.
